Comedy Producer

I founded Dunedin Comedy in 2018. As a necessity I have adopted a variety of production roles including: booking talent, ticketing, marketing, graphic design, video editing, filming, photography, lighting, audio, and stage management. I produce regular open-mics, pro-shows, and charity benefits, promoting mostly on social media but I've also been on The Edge, Radio One, and OAR FM.

Stand-up Comedian

As a comedian I have been reviewed favourably at the Dunedin Fringe Festival, and won the 2020 Dunedin Comedy Award for best MC.
